THE FELINE TIMES

Uni Fort battle

Beginning yesterday, an epic battle over the Uni Fort is taking place. It started with a fighter jet assault, which was very costly due to fighter jets crashing but it proved effective in damaging the Uni Air Force and disabling Uni Fort systems. Shortly after that, Ethanlish troops landed from transports and began to attack. The battle is still happening, but we expect a Uni win due to Ethanlish forces being stretched thin.

The weather will be sunny up until Tuesday. ☀️

\$TAXES RISE\$

Recently, due to war funding, there has been a median tax increase of \$3,000 on each citizen. The United Council may vote on an extra \$2,000 of tax on their citizens. This legislation has a 31% chance of passing. The time of the vote is still being decided by the United Council.

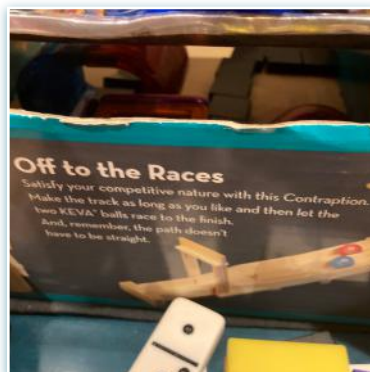

Bathroom Invasion

Recently, a series of events have been set into motion to invade all bathrooms of the house. Ethanlish troops have been outnumbered by Uni-bots, and the upstairs workroom bathroom and most of the downstairs bathroom have been invaded. The upstairs bathroom still is being evacuated and a transport plane has been sent to pick up survivors. Meanwhile, in the downstairs bathroom, good guy troops have fallen back to the Grand Sink Palace. The Grand Sink Palace looks like its support will be chopped in half, and then it will have more of a risk of falling (even though it is secured to the wall).

Uni-Bot Production

Uni-bots are made in factories all over the galaxy. There are a limited number, with only four factories that we know of in the house. Here is a table of their names, abbreviations, and locations.

Name	Location	Abbr.	Production
Uni Fort 1	On the Uni Fort	U.F. 1	★★★★☆
Uni Fort 2	In the Uni Fort	U.F. 2	★★★★★
Dining Room	Under the Dining Room Table	D.R.T.	★★☆☆☆
Upstairs Workroom Bathroom	Under the Upstairs Workroom Bathroom counter	U.W.B.	★☆☆☆☆

DR Battle

The upstairs workroom bathroom was recently spied on by James Bon-Bon, the dinosaur spy. He took data that was vital to invading the bathrooms. We don't know where James Bon-Bon is right now, but we think he is going to strike again soon.

Wu-Wu-Wu Zap is in his bedroom (along with the captain of the guard) hearing his Uni-bots being blasted to pieces outside. He has a giant cannon and is using it to try to shoot down a troop transport that is attacking the Uni Fort. Wu-Wu-Wu Zap thinks that if the intruders come into his bedroom, then he will make for the Uni factory by running along the track where boiling vats of molten metal circulate.
